

Slough *Lifelong* Learning

Raising learners' aspirations and achievements

Website Design for Beginners using Dreamweaver

Venue

Slough & Eton Adult Learning Centre

Sessions

10 Weeks

Course Aim

The Internet has revolutionized the way the world communicates and has something to offer everyone regardless of their age or interests. The aim of this course is to help you understand Dreamweaver as a web authoring tool and provide you with a map and some basic skills that are required to be able to build your own website.

Planned Outcomes

As a result of your learning you should be able to:

- ✓ Appreciate the various website design considerations
- ✓ Learn to publish text and insert images into web pages
- ✓ Build a simple website comprising 4 - 5 interlinked pages
- ✓ Learn the steps involved in buying domain names & web hosting services

Planned special activities

Learners will get to design & create their own website

What qualification will I gain from completing this course?

A Slough Lifelong Learning certificate of attendance will be awarded to learners with at least 90% attendance, if requested

Additional information

- ✓ Learners must have prior knowledge of PC use & MS Office products
- ✓ Learners should be able to communicate & understand English
- ✓ Bring a notepad & pen to take notes if necessary
